

GLOBAL SPECTRUM SERIES 2021

In February 2020, the 5th edition of our Middle East and North Africa Spectrum Management Conference took place **in-person, in Abu Dhabi**.

Following the outbreak of **Covid-19**, the remaining 6 regional events in the Global Spectrum Series were transferred to a fully online environment and held on our virtual events platform.

On these pages you will see a summary of attendees and a collection of testimonials from those who took part in the virtual series.

STAKEHOLDER GROUP BREAKDOWN 2020

GLOBAL SPECTRUM SERIES

WHERE THE WORLDWIDE SPECTRUM COMMUNITY MEETS!

This virtual event provided a near 'real' atmosphere - the platform, event sessions and virtual networking tools were simply great!

John Omo, ATU

The transition of these events to a virtual format has been hugely successful. Whether online or in-person, the global spectrum series continues to provide the must-attend events for spectrum stakeholders all over the world!

Aarti Holla-Maini, ESOA

The APAC Spectrum Management Conference was another high-quality event from Forum Global. The virtual format works very well.

Stefan Zehle, Coleago Consulting

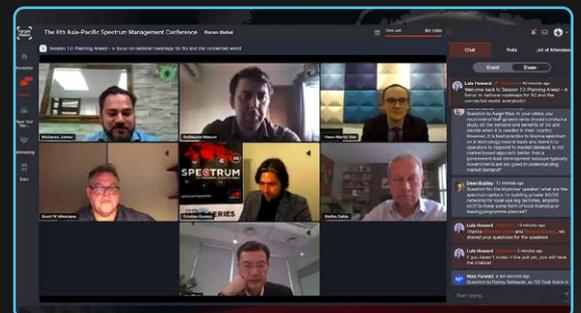

I really liked the virtual format and once again, you have produced what has proven to be the best Spectrum Conference in Latin America.

Jose Ayala, Ericsson

The platform is excellent and emulates a real physical meeting - Well done!

Mandialy Bodian, ARTP Senegal

Congratulations to Forum Global on successfully delivering a challenging, yet excellent, virtual edition of the European Spectrum Management Conference.

Saul Friedner, LS telcom
