

System Level Massive MIMO Testbed

5G Innovation Centre, University of Surrey
Cobham Wireless

5GIC Massive MIMO system level testbed

- 5GIC Massive MIMO platform equipped with large array and Cobham's TM500 receiver as a system level proof of concept for Massive MIMO technology

128 x 128
Scalable
Reconfigurable
Portable

A testbed which allows *full system design experiment and validation* of 5G system gains with Massive MIMO

Massive MIMO demo setup
